### **Registration**

8:00 – 9:30

Each team will obtain:

- SI chip (if requested for rent, one SI chip per couple)
- 2 maps of the competition area
- 2 start bibs
- a list of control points with their description
- 2 memorial medals, cleaning fluids, protein bars AONE

### **Start**

10:00

Competitors to come at start 15 minutes in advance to clear & check their SI chips.

On the start command the competitors will obtain point values for each control point (recommended to take some water-proof markers).

## Control symbols

- in the map: red circle
- in the terrain: orange-white lampion

Controls are marked with numbers **K1** till **K34**.

To mark a control in the terrain insert SI chip into the SI box (which is part of the control). SI box needs to flash and beep. If not done so, use manual punctures attached to the control and punch control on to the map. In case of a control steal or loss you may find little papers with control number in the ground. Please, bring one to the finish.

## Control points values

Each control is awarded by points values between 0 and 100 points. The list of control values will be obtained on start. Please note that controls with zero value will not be placed in the terrain.

## Time limit

5 hours (or less, according to your own capabilities)

There are following penalties when crossing the time limit:

0-10 minutes after the limit    reduction of 2 points for each opened minute

10-30 minutes after the limit    reduction of 10 points for each opened minute

30 and more minutes after  
the limit    disqualification

In case of the same amount of achieved points better time prevails.

## Finish

**Control nr. 34 is compulsory for all categories and must be punched as the last one!**

All team members are arriving the finish area together with minimal gap. Competition time is stopped by punching the Finish SI box on the finish line.

After the finish the competitors will read out their SI chips and will obtain a paper with the collected points. It is also a place to return the borrowed map-holders and/or SI chips. In case of a SI chip loss there is a fee of 30 €.
